

Humid Steel specifications

Liquid Connection: G1/8

Technology: Flow-blurring

Gas Connector: G1/8

Material: Stainless steel 316L

Notes: Ideal for evaporative cooling and humidification applications

Average particle size: 10-15 microns

Water Flow rate: 1-2 gph or 2-5 l/h

Gas flow rate: 55-65 lpm / 3.3-3.9 Nm³

Pressure range: 2 bar / 29 psi
